range

PROFILE

15+ years shipping products from idea to launch.

I design, build and write the words that sell WordPress products. I co-founded two start-ups, have been running an online course for 10+ years, and build sites, stores and web applications for small businesses and start-ups, mostly in Australia. I work AI-assisted every day — and I ship free tools that show how.

Experience

NEWEST FIRST

2025 – now
Remote

Mirror Mirror mirrormirror.au Lead developer & designer

A directory for finding verified cosmetic practitioners in Australia. Designed and built the whole web application, from idea to launch — working with the owner, a branding agency, the legal team and one other developer. Built inside advertising rules strict enough that most of the words people search with can't appear on the page.

Permaculture Course Online Co-founder

From pre-sales page to 8,000+ students, over ten years. Crowdfunding, filming and editing, the course platform, the community and the workflows behind it.

Today I run the tech and think about growth and marketing, together with my co-founder, and I'm the course's front desk: student emails in Help Scout, and course submissions passed on to the teachers for review.

41.9% avg. email open rate

Konrad Sroka Developer & designer · WordPress, UI & growth

WordPress sites, stores and web applications — designed, built and often writing the copy, or taking care of the long-term SEO. Landing pages, funnels, email sequences, SEO, and the automations that keep them running.

Ocean Addicts — a local surf store taken online in 2015. #1 on Google for its main product lines, and still working together.

2010 – 2014
Germany

ThemeKraft themekraft.com Co-founder

WordPress start-up selling themes and plugins, focused on BuddyPress and WooCommerce. Left in 2014 to move to Australia; the company was sold in 2024.

Freelance
Graphic & web design

Software released

OPEN SOURCE & PLUGINS

2026
WordPress plugin

Konrad's Editable HTML

Your client edits the text, your layout stays exactly as built. Paste the HTML, click once, done — no React, no build step. Submitted to wordpress.org, in review.

2026
Free web tool

AI Cost Estimator

Know what an AI feature costs per month before you build it. 12 models compared, the abuse case included. One HTML file, no backend, no signup.

WordPress.org
Theme

Custom Community · design & co-development

One of the most downloaded themes on WordPress.org for years, 1M+ downloads. Free and premium versions. Acquired by Macho Themes in 2016.

Open source
Starter theme

__tk · developer-focused

Built on _s by Automattic and Bootstrap. 400+ GitHub stars, 150 forks, featured in WordPress publications.

Plugins
Co-author & contributor

BuddyForms & more

A WordPress form builder — core plugin and add-ons, WooCommerce BuddyPress Integration, and smaller tools like TK Google Fonts.

Highlights

A FEW THINGS THAT TOOK OFF

1.6M+

views on YouTube

A short clip about the Bunyip water pump. Filmed and edited for the permaculture course. No promotion, no ad spend.

\$12k

in pre-sales, in two weeks

A trailer, a simple landing page and an early-bird offer for a new online course, shared by hand.

WordCamps

speaker · 2011–2012

Germany and Switzerland.
